A Test Through Time

There are many things that come as a distraction and test. It either makes or breaks you. I encountered several tests along the way example: Spiritual test, from loss of employment to cheating on a good man, my children's father, but he stayed faithful and true, anything can be a test from disrespectful children; to someone spreading rumors on the job. It is up to you how you are going to overcome the trials, during that time. God can bring any person out; as long as a person stands in faith, yet ask God for guidance, deliverance, and overcoming the breakthrough. If God brought me through my low moments; in life than God can surely do for you too. Right now, in the world Coronavirus / Covid- 19 is plaque in the world. The world is broken and needs to cling to God. Have his son Jesus as their savior. This virus was something; which had everything locked such as business; others was closed for good as public schools, jobs, yet arena games. Our wedding was scheduled for June-20-2020 but due to limited amount of people; in a room then my fiancé Matthew and I had to choose August-29-2020 but the date got moved once again to, the month of October. Also, we wanted the wedding of our dreams: The one we planned out in greater details yet thoroughly. The era is a time for change, breakthroughs, and turn arounds of calling to the highest God of Salvation. This virus cannot STOP! God unchanging hands- Amen- Test will either make your stronger or bring you higher / closer to

God, or it will have you settle in the same position. It is all up to you as a person. Do you want more? If so, then stand for victory yet greatness. Life is full of different rides just buckle up and learn from the experiences. You want to understand every test in your life, but there something to be gained from the test. You will learn endurance, patience, momentum to name a few. Some test are great others are a different outlook to awaken you to new brighter yet life altering things. God is the only one that can pass you from the test: Just don't give up or quite step into the long run of it all. The battle isn't yours but the Lord & Savior. You trust fully and cooperate with everything in you as an individual.

..God Covers You..

God is the source of light. He has me doing new things; that I even dreamed of God covers me by his blood yet mercy. The full armor of God yet Breast Plate OF Righteousness covers me. The more God calls me to work in new adventurous, the enemy (devil) Stands no chance, because God covers me totally more than naked eye sees. I started 2 new groups on Facebook: "Let Your Truth Be Heard" and "Speak Truth About God" ... What does it mean to be covered? You might be wondering or asking. It means to be set from bondage, put downs, or dramatic experiences 'Got to Go.' God selects the righteous ones yet give everybody an own destiny. What path inspires you the most? God is the only way to be set apart, from the world. People have not because, People ask not. It's all a changing process. You must perceive in order to receive. God will forever cover his children. The children of God the

Almighty and powerful creator. There a lot of things, I've gone through in life. 'I haven't always understood... How come things took different turn or why I had mishaps /struggles. That's just a part of life. God gives the strongest people 'Christians' the difficult challenges. Only strong will survive!

Romans 8:28- All things God works together for good of those who love him, who have been called according to his purpose. I find something new on my calling /purpose to be forthfilled in my life. In New International Version student bible Psalm 24: 1 - The earth is the Lord's and everything in it, the world, and all who live in it. Also, in the New International Version student bible Psalm 24:5- He will receive blessing from the Lord and vindication from God his savior. The master of the universe, God have everything in the palm of his hands. God covers you totally not partially but does not let you go through it by yourself. I am 100% thankful from the bottom of my heart, the relationship I have in God, yet the numerous ways God covered me throughout the years. God protection is the best, it is a shield from any hurt, harm, or danger. Let God cover you the way you need him to do...

Sometimes, you got to be tired of running from the truth. God covering is merciful yet better than any raincoat, or rain boots during a catastrophe storm. You need to bundle up, so you do not get wet in the protection of God. It is all a changing process. You must perceive in order to receive.

Praying Partner

My lover, children's father, yet best friend, confidant, phenomenal praying partner. He wakes up as early as I, and together; we pray to our heavenly father, 'Lord & Savior' our powerhouse. He is a faithful man spiritually, and physically. I love hearing Matthew stand in agreement /decree in prayer too. Together we are one, and God is the lead of everything for us. A praying partner is so much more. It is the love language between husband and wife. It shows ways God leads both of us. Matthew is sexy to me, by many ways but #1 to witness and visually see the growth on his life, by God. What does a praying partner mean to my numerous readers? It enhances the relationship or marriage yet give a new drive to preserve. God impacted our relationship to greatness and higher heights. A man that prays, it says...everything about the way he takes the lead or charge. Matthew stands by my side, through everything and it makes me fall more in love with him. No matter, when I say, Babe let's pray or read in the bible the book of everything God remarkable done. Then Matthew joins in and put other things to the side. A praying partner stands in agreement /alignment with you yet seeking God face. They know by communication what needs to be prayed for before you sometimes mention it. I thank God, for Matthew because he is a true man of God. He finishes my sentences, or knew my thoughts before, I speak them out loud. Our relationship has God as the head of our lives, peace, assurance and greater faith to the highest God.

Time Management

Time is an essential gift to life. It plays important to many areas, which a person sequential go into. Also, you can use it as a statistic tool to apply every day. The power of 1 used terminology in the form of Lord-N-Savior God. How do you value time? Do you spend it through prayer? Early, morning rising to visualize the sun coming up, through the blue open sky. Time management should be equivalent to the 24 hours of a day. God requires our undivided attention not just a short span. Time moves so swiftly you never realize; how fast it goes by until have children of your own at least: I did not notice to then. Have you thought about quality of time management? Is it as precious to you as favorite racing game or basketball game? What things are you doing to show God precious moments within time? Do you start your morning by eating the first, important meal of the day breakfast? Time is very valid when spent wisely; It is the essence of beauty caught by a glimpse of the rainbow, of fresh air going into your lungs. Life is full of so much yet offer tons of new things; to enjoy of life. Time is forever grateful each minute that goes by; draws you closer to a new beginning of fresh goals, opportunities, and open doors. Time does not elapse but lapse in every stride. Manage your time more productive and effective, so you want to be to swamp with so many tasks in the day. Time is important and requires seldom amount of work.

-God Needs Be Included Daily-

God is a good God to us. He the only 1 who could change your circumstance yet ease your pain. God is a deliver of everything. Let us wish for better days then a wishing well. God hears our cries and feel our breakdowns, but greater is overcoming the break throughs. God sent his only son, Jesus into the world; so, we might have eternal life. John 3: 16. It's a question... That I always ask how anybody could leave God out of their life. God holds all creation in his big hands; the creator of it all. Genesis 1 - In the beginning heaven and earth. Just as a person focus on the work hours, bills, or their paycheck. You should allow God the precious important times. It's better for the electoral to include God; Instead, of not including, God cause the world would be more further, than where the world is at now. God says, in his book countless times fear not for, I am a jealous God. The love of God goes above anything or any person; flourishes fuller than the colors in a rainbow. God needs to be brought back into the schools, homes, government, yet "Everywhere" ... Daily have always been my goal; to start my day off by morning prayer and praising God through the storm. I have so much peace: The world did not give me peace, God did so, and the world will not take it away. God is the only one which could save us by

grace. God uses the holy spirit to lead us /intercede through our lives. God can pull the lost from the gates of hell. God will forever reign. Worship goes along ways by meditating singing, or rejoicing reading in the bible, yet staying prayed up. God will direct us on the right path yet lead us in conviction of your sins. God is my heavenly father also my stiles waters. God can change your broken or bitter heart. Show you a new glorious life in abundance. God angels hold the book of life. If your name written then the doors will open from heaven, yet the golden gates. If your name is not written, then your pain will be crying. Each person needs to know God for themselves. Jesus endured a lot on the cross, suffered to many beatings; also shed so much blood then in a test tube. Could you imagine risking your life; for someone in the world. God still works miracles just need to have the strength yet belief. God uses his children in so many ways, rather it's preaching, sharing your testimony, or witnessing to others. God have brought me from and through so much. God forgave me yet acquired me a new start. God is my forever everything the 1 who I search /go to first on the supplication, of ideas or a new job opportunity. God can stich up any wound that is open just go to him warrior.

Tribulations

Many people have gone through hard times: Rather it was lost job, unexpected lost, or life challenges. I have been through so many obstacles / tribulations God always came through yet intervened. Another way to look at tribulations are test of endurance, patience, faith but relying and trusting God. What all have you been through readers? Have you got to know the savior: God, Jesus and Holy Ghost? All 3 are powerful yet full of tons of love. Tribulations are set to make you stronger, reach higher / strive, new outlook to life. It does not define your characteristics or reality. It guides you by a new path, assures hope and add time. You have a story to tell by the tribulations: You preserved to make it. Those tribulations I've encountered in past: Where I was running from God, loss of my 2nd son {Hosey}, losing my job during the time, my husband and our eldest son lost their grandpa Numshum. At first, I had questions as to why? How can I pick myself up, where to turn and go...? When will I start working again? God had all my answers for me. I understood my purpose / calling in life. I had greater confidence that blossomed into something

new. The more I cling to God less I looked at my trials /tribulations. God gave me peace and stronger faith. I had gift to help others, write this book, and share my story. God can bring you through the darkest moments; In order so your light could shine in this world. Find new things you enjoy? Do you have any aspirations? Write down goals to accomplish. Have you thought about letting go whole heartily 100%? Do you know who God is truly defined yet how magnificent God truly are though (hands up praise God). Stop! Trying to figure everything out. Are you the creator should I say, God? Relax... Relax... Relax... your change is coming now! Tribulations seek you do not devour you. Things requires practice in life. In order to do better; you must 1st know God, realize there is much more in life. Problems come and go it does not stay long. You should walk in faith and hold your head up high. Sacrifices pays in the end. Like Jesus sacrificed for you and me.

Changing Your Concept

As individual several things go through your mind within a blink. You must dish out the negative to wash the positive. It all needs a cleaning of changing your concept. How are you thinking daily? What things are hidden undiscovered? How would your family, friends, co-workers describe you overall? Positive was the alignment in the source. Changing your concept on the way; your life viewed. It is not about how many failures you've been through, but what ways you changed the outlook. Did you do anything differently? What you think normally you speak by words of mouth. Grasp and soak up everything in your life. Enjoy! The simplicity of the birds humming or the droplets of rain dropping. What are you wanting from life? Each day gives a new beginning to start. Remember changing your concept is the key. In my free time, I enjoy writing poems, books, or journaling. Prayer is the key to unlock many doors, Trusting God fully, that's what I'd do daily. This simple question readers: When you look at yourself in a mirror. What reflections do you see or notice? Is triumphant of greatness to succeed than before. When I look in the mirror; I see a strong woman that know my worth - It makes me reach higher yet strive more for my children not to perfection. Nobody is perfect. I see the woman God created, yet learn more about my daily mostly, I love myself and add myself to the important list. My counselor told me this before: You got to love yourself and don't be too busy /swamped that you neglect yourself. My counselor name was Marissa.

Changing your concept could be the best advice to do, now. Each sunny day brings new sunshine of hope, which it could brighten the horizon in your day. There is so... much to life to enjoy, so live it now and embrace. Stop! Holding yourself back, push forward, and acquire peace. Change is not always easy, but one thing for sure it is very much worth it.

Anointing

^{1st} Job 2:27 - As for you, the anointing which you received from Him abides in you, and you have no need for anyone to teach you; but as His anointing teaches you about all things, and is true and is not a lie, and just as it has taught you, you abide in Him. The anointing is a gift of release from God. It separates you as uniqueness than anyone else. We have anointing on your life, just need to find within; Like example: Of a hidden treasure chest buried in

and waiting be discovered. God designates the power of the anointing release, yet your true potential. Just look at it like this it is a calling on your life: To do more than you dreamed about doing, the goals you need to accomplish. It is the oil that never goes out. Anointing is astonishing, bright, yet polished just for you. Do you want it? Then let God do what needs to be done. Be receptive and fear not. Anointing on your life is the greatness through it all. People will begin to see, God light in you while; being drawn in to wanting to know more about God. The Savior / King have it all. It is a calling on your life to be more defined and in tuned with God, You, or Your surroundings in general. A shield of protection from God that what the anointing component make up is produced in the atmosphere. A balance of security that is the anointing yet God marvelous power to his children, or body of Christ, yet the kingdom of God.

Push Forward Look Ahead

There are a lot of hills to climb in life. Some are easier than others, but most difficult to obtain yet go through. You push past the pain. Keep going forward

and looking ahead; no matter the distance you travel too. Anything in life requires you keep going and do not quit. Push! Push! Push! Let that be your new motto. Hard work pays off in the end of the trial. Your mark a lot closer that what the blue ribbon seems. Forward is the only way to go. You cannot go around and underneath: If you look back then, it will detour you off the track to achieve, your greatest potential. What do you expect to achieve within a year? From now.... Do not be the 1 to hold yourself back. You want better than before, so go out there to conquer it. As a runner from track in Junior High to High School; If we go all the way back "Little Olympic Days" at the age of 5 or 6. When it's a 100 yard dash run, you got to keep going yet pace while, pushing yourself to be the 1st to touch the yellow tape of the finish line. Have sportsmanship taught you anything? In general life within itself. Write it down, and you will find thousands of ways why to keep pushing yet going forward. My children are 1 of my biggest motivations; to dream bigger and succeed. Create a vision board, of the things you like to do, where you want to go, the things you want to accomplish, or new goals you want to reach.

Honesty

You need be honest about yourself, before you can on anything else. If your children ask ... When is Santa coming, be honest it is just a myth. Or they will wonder why you told a story later as; they become older. When your co-worker asks do you need help on the project... Say, "yes... Susan or their

name you can help me." Honesty is everything another form of truthful. It starts as individual status starter kit. What will you define honesty in your life? If you are going through a turbulent in life: Honesty is the only way to move forward or handle the issue. It cost zero cents to be honest so why not do it. The key to thrive in life honesty to survive. Those 7 letters in honesty means a lot. Does honesty define time? Never be too busy to let your honesty be heard: Too those which have an open ear. Honesty is form of gratitude. I am honest person that tell people; what needs to be told, and not the way they decide to interrupt it. If a person honest with you, least you can do be honest to them. It requires respect in order; to get respect so choose wisely. As the elders of the church would sometimes say: It is not just an old wise tale. Honesty about a previous job is what gets a person hired. The employer will find out a lie, by submitting an open background check to you. Honesty is less than a pack of hot chips. As a child it required honesty by playing 'Duck, Duck Goose' or 'Tag' yet another game was getting the message right by repeating; what the next person just said, the game called telephone or hot potato. Some games still played between children now days. Weatherman must make a prediction or forecast, by the meteorologist speaking honesty 50% of the time about the weather for the week. The stories passed down from generation to generation had to have truth, behind the carrier. In order to still be told. Honesty is truth in the mediocre land. How has life brought honesty in your life? Did it make you stop to appreciate the values it brings forth?

"Dedication too Family & Friends"

I dedicate my book to the lost, broken-hearted, the one lacking faith, yet person searching for God. I have been through countless hard times and battles. God brought me through it all. I am forever grateful. I now have a remarkable testimony, yet it is powerful/strong. I have run away from God but now towards God. He saved my life from the darkness of days. There is hope in living nothing too tough for God. 'Strong Warrior of Mastery'. Also, I thank God for life, my children all 3 (Anthony, Our Angel Baby Hosey, and Adreena) my fiancé Matthew for encouraging me, standing on the word of God, preserving with me as one. Also, for reading every chapter yet page in this creative book. My best friend Kimberly Penland, for being the first one I read a piece of my book too. The one who said, she will be the first buyer of my book, also telling "All her family and friends". My other best friend Chemelle Bell, for encouraging me, too laughing with me, yet being a listening ear always to hear: What I truly had to say. My parents for creating me, praying for me infinity amount of times, yet helping to believe in my dream, of writing a successful book about "The Power of 1". Their names are Michael and Belinda Crawford. Both are my inspiration to some extent. I hope my book inspires and impact the U.S.A Nation. Show you ways to enjoy your life yet teach you not to give up. Try until you cannot try anymore! That should be the goal. I always dreamed of writing a successful book. Thanks, to God it is happening. I cannot leave out my mentor Apostle

Kristi Highwalker and her husband Richard Highwalker. Their books gave my fiancé and I new outlook on life, how to intercede together as a powerful couple, showed us different mechanisms to trust God. Another thing life full of moments to enjoy during your life. Do not miss the opportunities life have to offer you; as an individual. Know someone always watching the good within you. Trust God with everything in the inside; do not doubt or fear God. Your life will be forever changed.

Believer

In my opinion... A believer a person that stands firm on God word. While 100% trusting God through it all. I'm a true believer of God day in out, night after night. I rise praising God listening to the famous gospel music and applying the scriptures to my life. Believer form of persevering through and placing your focus on positivity yet right things. Faith is substance of things hoped for evidence of things unseen: Hebrews 11:1 - In order be God true believer must obtain Faith; look within your heart, think outside of your head.

Example: You should think outside the outdoor realm, tap into the spiritual realm. Belief is standing true to yourself. Look deeper than the face that stares back at you, in the mirror or while you are taking hot towel to wash your face.

Name ways which you believe readers? How do you preserve through? While waiting for triumphant. The church is you not a building you attend to on Monday-Sunday. Your belief can carry the weight of things, that bringing you down like the ship of Titanic hitting the iceberg. Transpire to your greatest potential. Confidence is not blocked or hidden. Dig deep like your finding a pot of gold from the leprechaun. God holds the key answer to map of your life yet give conquer from past mistakes yet the enemy.

Conquer

Be a different butterfly besides just a colorful one. Conquer things in the world, achieve more than what is given during 24 hours mark. You can create your own motto: By learning the encounters that once broke you down. Practice flying NO! not literally just imagine by closing your eyes. What expectations you have about relationships or people in your inner circle in life. Conquer you were defeated, but an overcomer. Conquer is smallest yet momentous achievable outlook. Success requires lots of dedication yet hard work. Good work ethic is the opening source, to get what you want rather new house, college degree, brand new car, or family trip to Six Flags or Disney Land. What you think that is what you are so do better: In order, you get better. Nothing in life comes easy or freely given to a person. Unless it is nature the birds singing the melody tunes. Be a hunter hunt for obtainable / reachable to-do list of things. Once

you become a conquer; then you feel like a person at the top of the advantage mountain, or a blizzard in a snowstorm. A warrior for productivity to achieve. Conquer! Conquer! Conquer! Until you hit the marathon to the finish line. Whenever, you conquer something it gives entitlement to your name, stand up and be bold, courageous, and proud of your accomplishment.

Listen to Your inner voice

Individuals accumulated an inner voice. Women have a sense of intuitions a gut feeling: When something is off or wrong yet changed certain phrase / degree. The inner thoughts deeply rooted. Your 1st response is accurate one to choose.

If you're out on a date, and the guy tries to make a gesture more than go with your lady intuition to move on somewhere else. Trust yourself is the top clue; before you can trust anybody else. Listen to your inner voice direct your next steps; to bring you too great overcomer. God use a inner voice to speak to you, it's a calmness in the tone just like the passing waves in the water. When God speak you will know different than any voice, you have heard before. Just be receptive, pay attention, and follow the things God asking of you. Your inner voice is conscious decision to make when you are looking for guidance or assurance in something laying ahead. Be self-conscious, aware, and alert on which voice you hear. When something going well you have that calmness yet peace. Whenever, something isn't suited that your inner voice kicks in and let you know. The holy spirit is the intercessor between you and God the helper in the situation. God speaks to get our attention or take us to a new dimension in his favor. If you truly trust God then you listen to his voice speaking to you, yet you will comply and follow the directions needed, to be taken or you will begin to open up more to God and speak to him more, than just by prayer. When you listen it is more than just hearing words or a subject. It is applying what you learned to areas in your life and fully understanding, what was communicated across to you. God gave each individual two ears for reason, so you can listen fully yet double the amount of times. So, remember listen and adapt.

Foundation

Who is the center of your foundation? God supposed to be #1 before any; other person that is the main foundation of it all. You need perspective of a solid foundation. The people in your life should motivate: You to become a secure yet better person. Have you asked Jesus to come into your life? Be your Savior yet another foundation to choose gratified. As a solid foundation it holds security, prosperous, joy, love, yet a blanket of resource to gravitate too. Foundation holds impact to knowledge a vessel of guidance. When I am talking about a foundation not a house made of bricks. It is a rock to turn to when you balance quivering. It teaches how to stand strong during a shift, or an unparalleled latitude. Make sure your dots connected like the big dipper in the sky. Always dream greater yet do not twist in the turn. 'Reach Higher' than the hemisphere. Let nothing separate you from your foundation, of God and his son, Jesus Christ. That is best foundation you can hold, and not waiver. Foundation draws things out of your comfort zone yet brings total divine. It is newness of everyday in life. God is the leader of everything, in life just make sure your centered, well planted in the word on scriptures to meditate on. Foundation is security of a safe place to call home. God gives us all a decision to make, on where we want to reside after, but each day you must work forth it and place the

hard work into it. Foundation is strengthening your overall outlook on the enjoyment or inheritance in life. Where do you expect to be in the next year from now? Aim towards your goals and make sure their obtainable. Where does your foundation lay at not talking about your home, but your spirituality in the Lord? Jesus is our first foundation of love and how to love others in perspective. Love is a foundation of inspiration. God does mend the broken-hearted on the space in your life needing to be filled up.

Inspiration

Inspire to be the best you. Choose something creative to take on, create a platform, or draw a picture. What are your inspirations? Have you taken that in thought process; yet consideration of the meaning of full hope? What things you did as a child? Which you enjoy or still do in your life. Inspire to do something great in the world momentum. When you look at the sunset over the crystal blue water, at the beach or like: Does you see anything in more depth. Close your eyes and picture it draws in visually of the details to navigate too, in your life. There is always more to life just go to hold onto it. What is your list of places to travel to? Is it Hawaii, Mexico, Bahamas, Jamaica, Cancun, Virgin Islands? Now picture yourself at 1 of those places... Then what would you do to give you

inspiration to "Explore". You should look within your soul to find; your likes / dislikes the measure in your life. Inspiration bring new ideas, exploration, brilliant, yet developing of a "Huge Dream". Their many things inspires me God, my soon -to-be husband Matthew, our children (Anthony, our guardian angel Hosey, and Adreena) , my parents (Michael & Belinda) , Matthew Parents (Kenny & Deanna) , life, poems , my grandmother Myrtle, books, creativity, movies , my pastor Billy Mucker, also top choice Jesus. I find life to be very inspiring like writing a new song or singing the "National Anthem". My book inspires me to share more, for my readers to know, find, come up with new goals, yet inspire themselves. Nature can inspire people by just the beauty of the atmosphere. Find something that either draw you closer or have you start something beneficial. I just started a new business through Mary Kay and, it is one of my dreams come true, since my younger years such as my childhood. I always wanted to start my business, I just did not have an idea of what business to launch or start. I try find inspiration in so much in life to enjoy and adapt too yet grow from. Just discover what you like to pursue into your path in life.

Change

Any type of change requires dedication and commitment also momentum of hard work. First you must look deep within be truthful, and willing to: "Let GO OF Layers" ... Each layer is harder but more being removed by your steps of change. Ask yourself these questions- Do I really want to change? What will I get from the moment? How will I push during the toughest times / challenges? You got to be real with yourself and don't give in to 'Negative Lies' or Just Stop / Quit. A lot of hard work must be taken on. Change will break you in sweat and tears, but you will have to fight to succeed more through greatness of hope. When you get tired of being stuck or having zero speed: Then change will speed up like a race car driver on the black track with tracheas. I was running from God for so many years 16 years exactly. In the year 2004 to 2020 that time frame. Now I run toward God daily from sunrise to sunset / morning to night. It feels light weight, confidence, free to accomplish anything most Peace. I was a lonely 34-year-old woman going nowhere, lonely in so many areas, yet I was missing so much from lost family members passing in the past, to needing touching / saving. One day, I got tired of being defeated {hiding from brokenness within: That I finally had to pucker up to the challenges yet hard rock break downs.} I had to go through different emotions; my clothes got watered in soaked tears. Change was hard,

but then it came so much easier. Layer after Layer started to shed off like hair on a puppy dog, or wool on sheep. A mask begins to be lifted as my pores started to open up / cleaned. The things I started working on in my life started from inside, I broke domestic violence / addiction of my father made me deal with the 'Little Girl Face to Face'. Basically, I had to readjust yet do some soul-searching mostly grow up, and handle life situations. Change gave me strength to go on, to realize some things were my fault and others not so. Forgiveness needed to be added in order to truly heal, also leaving my past behind and not reliving it. My future was something, I looked forward too. I had newness of aspirations, clearness, yet being whole again, yet understanding that fully. Then I found my identity to self, yet God let me see my true purpose, yet our relationship started to become much more, yet revelation of God was there. Change brings a person much more than they had before. If you are looking to lose weight, their change must happen. Anything in life requires adaptation / change of occurrence. You find greater truth also identify of self. It gives courage to believe in yourself, while achieving much more. When is last time you looked deeper or cried of wanting something new? Name things in your life, you want to remove but mostly change for better tomorrow. Inspiration is a gift from within. Be your own canvas to create the picture you want others to see of you. Hope in something bigger and better for your family.

Jesus

Love is more than a feeling or an attribute. It puts forth force of action yet requires valuable time: You must love yourself before you can love anyone else. God showed us his love by sending Jesus into the world. Jesus love a gift of salvation yet teaches endurance through pain. Psalm 18:46 The Lord lives, blessed be my rock; And exalted be the God of my salvation. God is phenomenal love. Romans 5:8- But God demonstrates His own love toward us, in that while we were yet sinners, Christ died for us. Jesus sacrificed himself for us, to be free / forgiven also. Jesus poured out into us as drips of water from a fountain or wishing well. John 4:16- We have come to know and have believed the love, which God has for us. God is love, a deck of playing cards. There are many ways to love Jesus through prayer, reading in your guidance book to life the bible, by expression to other people. Jesus is the only way to the father God. Jesus showed us true endurance through the strips on his back

and lashing / beatings. I adore Jesus for everything that he endured for people in the world. I love Jesus so much. If you do not know Jesus for yourself then get to understand John 3: 16 For God so loved the world, that God gave his only begotten son (Jesus) that whoever believed in Jesus should have everlasting life. Jesus love is so rewarding yet a blessing to feel. Love requires more than just saying, but action need to be applied also. Jesus loves you If you have not realized that or heard that mention to you, about Jesus. Also, Jesus is the way, the truth, and the light unto this world. I love people the way Jesus loved us.

Strong Warrior

Strong warrior a person that stands strong like a soldier. They know how to be in alignment yet defeat by letting God handle it all. Neither do the person wither, but let God win the battles spiritually. You learn the meaning of true value. How to put on the full armor of God and breast plate of righteousness. Bravery is a characteristic of a strong warrior. You need to be ready to shift / move different directions. A new day brings a different pathway. Fierce is the paddling of a warrior, someone that goes through emotions in a positive way. Solid warrior of line marching in the Army of God, or the physical military stanza. Fragmentation is not brokenness; It is just a simple sentence of the warrior mistakes / turbulence turns. Confidence is a key / attribute to

portray for a warrior. Survival of self-worth / self-esteem holds peace for the not so wounded warrior. Strong

burdens Warrior show momentum, endurance, patience, bravery. Just put on your comfort shoes and Finish Strong! Each warrior looks out for the other warrior that zealous together their true strength. Each battle is different.

Glorified

Safety is in the motion of security yet glorify God here in the earth core. When you glorify then; honor is due by realization of overflow of special gifts, chosen for you. Blessings began to stream down placed in your hands. John 12:27-28 "Now my soul has become troubled; and what shall I say, 'Faith, save me from this hour'? But for this purpose, I came to this hour. 28) Father glorify your name". Then a voice came out of heaven: "I have both glorified it and will glorify it again. Found in the New American Stand Bible. Isaiah 66:5- Hear the word of the Lord, you who tremble at His word: "Your brothers who hate you, who exclude you for my name's sake, have said... 'Let the Lord be glorified, that we may see joy.' But they will be put to shame. Found in the New American Stand Bible.

Dig Out

The iteration of the terminology applies just as it reads: "Dig Out". It means to get up from the place or situation, you are in a dark black hole. Just as tornados come sometimes with a warning; other times it comes quickly. Then

that's how situations arise: Some situations are in our control others; you need God to bring you out. Dig out of the misconceptions, yet the pain. Do not soak it up like spaghetti wrapped on a fork in the plate. Dig yourself out like a cat dig through a trash can for food. Your life has more value to it just must shine through: As a sapphire or emerald glisten on a ring. The pile wants to go anywhere. If you do not dig your way through the pile then, how you expect it to move. It does not move itself requires kinetic movement. You got to search through the top of the problem; until you surfaced the bottom to a solution. Have you seen a child playing in the sand box: Just anxious on building the biggest sandcastle? That is the frame of mind you need to adapt. The biggest sandcastle mentioned hardworking paying off: You reached the top with your spouse, children, or good friend, yet family the best support system to find. God is the #1 outlet to solving the life riddles: Include, God in your support system it does not get better than that. Some piles are bigger and harder to dig through, but in due time you can reach the full potential. Just keep yourself motivated and walk in faith through the roughness; It will all change it just might take some work from you. God brought me through so... many obstacles in my life, and the way I got through the tough time was by the grace of God and the deliverance and grace poured onto me, from God the creator of the universe. You can do it, put your action to work everything else follow.

Standard

Simplicity to complex on standards. Do you have standards? Are their things you want let someone do to you? Or absolutely will not accept. Your answer automatically "No". Everyone needs standards same as boundaries. There are many standards that myself set-forth. One thing is standards on letting people not talk to my children rudely or spanking them for no reason. Relationships that is genuinely worthy, lasting, maximize the needs basis all have standards, to some degree not just the flow of the people. It is a good order system /prioritizing. A systematic system of righteousness to the justice for all. Standards in the church specific order from preachers, deacons, choir director to singers. If you do not have any standards simply start today. Order of structure is better than just going with the flow of everyone else. Standards give you a sense of accomplishment of achieving something remarkable.

Teddy Bear

Soft...Squeezable... Comfortable... A teddy bear is a secure place to hold onto. It is good stuffy animal that could put on your pillow, during bedtime nightly hours. As a child it could be your best friend: In adulthood it could be your show case on your favorite couch. Now think about its different metaphors, but both comfortable, requires one-on-one time, yet always there with an ear to listen. That is same way about God the more; you understand about your savior the more joyful, you will feel yet the more begin to share and open. God gives you everything you dreamed; of also million times more. You will have a friend always there by your side in his arms find peace yet God fullness embrace.

God gives security, ownership, time, yet gifts you have locked up / adjusting to now. Also, God is always truthful, guide, and opens your visuality to new perspective to life. As a teddy bear does physically God does spiritually.

Metaphors is context that is completely different but have the same meaning or concept. God is the valley of a bright rainbow future: Just ahead patience is the changer to anything. God gives comfort to you and shower his love upon you. You will find peace in God if, you let him manifest in your life. I enjoy waking up in the morning praising God, developing a conversation, and learning more about myself yet God also. I love people the way God loves us. I want the best for my readers in life, yet I want my readers to succeed in the opportunities in their lives.

Choices

Everyone is given choices to take. Either go right or left. Take risk ahead or just settle in the same predicament. God gives us more options then just one.

Do you want better and more yet less of none? Are you serving God daily or on days? The first thing in the morning: Is your cup of coffee before God? Or you pick up your bible to read in the word for that day. So, you can have smooother day also meditation; on the scripture / scriptures to think on throughout the day. Choices can be greater or cost a detour. It all depends on your natural instincts or the naked eye. What choices your making now to adapt spiritually. How are choices influencing your life for the better? In what was positivity surrounding you. Do you write down daily, weekly, monthly goals?

Vision boards are the best, because it let you see step 1 to step 3, how to move from point-to-point, yet where you want to be from a year, to five years, to 10 years from now. Think about this: In what ways are my choices reflecting my behavior or actions? Do they all match like a lettuce on a taco with extra sour cream? It is good combination that goes very well together. Choices are made not to be broken why because it should motivate you. Numerous amounts of decisions to be made yet selections to choose. Choices are about finding the 1 that is workable for you in life. Everything is not easy in life, some things are more strenuous or hard to get through, but in God your able to get through, yet push you through to the next level in your life. Reach higher than you have reached before do not settle for less. Keep trying until you get to where you want to be.... "You Can Do It"! Choices are hard to make but It must be done.... Success takes a lot of hard work, drive, yet momentum, and I am glad that God instilled those in me. God is real yet a miracle worker, a prayer answer, and an abundant rewarder. Seek first the kingdom of God and everything else would be added. Choices are easy to make if you do not over analyze the issue to much, yet you will become stronger, stronger, and stronger, while able to accomplish so... much more. If all choices were easy to make, then you would not know what hard work look like. Find that drive force deep within yourself. Quitting is easy to do, nor requires much work, but where do you get at 'Nowhere'... Choices are obtainable yet push forth things into existence.

...Validation...

Validation is proving something to be accurate / accuracy. Many people tries to get their parents approval still as an adult, yet an ex-lover to take them back and make it work for third time, or children by buying them gifts instead; of covering them in love yet discipline to right verse wrong. The only validation needed is from God. You need to know the anchor of your heart, the spirit walking by faith not by sight. God validation is important because you need to have a secure place within him. You need to be accurate by the things; you have prayed on without conflict of interest or doubt. Validation is the alignment to what's truth and not a lie. Know where your validation is holding up? If you had to rate on a scale: Then whose validation means the most to you. Either God does or people. Everything does not need to be validated. The only approval is required that's God. Validation is a seal on something, but you are not required to interchange that for a specific person to notice your effort. You must be valid to yourself, be truthful and acknowledge your joyous times, yet see who is looking at you such as your children, or a younger cousin, yet your friend. Validation is about security. Who do you validate in your life? It is not about the number of correctness; you do but the number of attempts you have tried.

Common Ground

Where does your common ground stand at? Are you letting your job, relationship, vacations, or luxury trips? Find your commonality in God. What things you found in God; yet the different ways you want to elevate higher within God. The first common ground should be God as the center of your focus point. Next think on your move to make afterwards: Find placement during your common ground. How do you want your life to change / go? Once God becomes your common ground; everything else intersects / come together at the start. Name your commonality to list on your list. What you have in common between, your family or friends. Stand! On your common ground and do not sink but keep tracking. Common is firm ground that is unshakeable yet not easy to move. That is how you stride in your life push through. It takes a lot of work in your stanza but do not lean backwards, look ahead to better days and new moments created.

Thinking Process Through

The chapter is as plain as it reads. Everything requires thinking before; you react in the process. Make your process / decisions rational instead, of irrational. Process needs to be handled dignity. Do not react too fast: It could cause a painful choice. God gives us illustrations to see, the different outcomes. God wants people use time wisely. Thinking things through cause handling stressors. Logically it comes together in the process term. When you think about something for too long, then you start to over analyze or ponder on it.

Before, you do so always think through, so you do not regret or make a mistake to early. At times it seems like the process is long but is a lot shorter than what you think. Thinking requires some work and effort, but mostly everything in life does though. When you think it through you have a better outcome? Patience is learned from a young child. Thinking is good trait given unto us by God.

Do you take yoga or meditate during the day? Both exercises release hormones that give you the option to think. It should be daily thinking the more you practice, the better you will become in your thinking. It takes a lot practice to ignore the negativity. That has how come thinking more clearly brings a good pictorial picture, that is your brightest scenery yet victory!

Patience Is Key

Patience is part of life to adaptability. Everything requires individuals to wait, and patience is part of that. The process may take longer, but rushing things only cause chaos. Delayed packages are sometime the biggest Wow! Factors or full of surprises. In the book 2nd Corinthians 6:6- In purity, in knowledge, in patience, in kindness, in the Holy Spirit, in genuine love.

Also 2nd Corinthians 6:7- In the word of truth, in the power of God; by the weapons of righteousness for right hand and the left. The New American Standard Bible 1st Peter 2:20- For what credit is there if, when you sin and are harshly treated. You endure it with patience? But if when you do what is right and suffer for it, you patiently endure it, this finds favor with God.

Patience comes easy to some, while others it takes practically a lifetime. In my personal life, sometimes I wanted quicker like a quick hot meal microwave analogy. I would be right there about to receive a blessing: Then I quit too early or give-up than blessing be missed. As I have matured, got older, understood life even more, while trusting God sincerely or 100%. I learned to have patience more, go with slow, pray about everything, mostly do not rush nothing. Just simply wait that's part of patience. In this section of my book. Readers, I hope you fully understand. Patience can teach you a lot about who you are becoming into something greater. Learn to stand silently and speak into your life. Allow God to work in your life and do not be afraid, you should get to know more about God, how he saves and changes lives. The way God removes each layer that once was pile onto the next layer. God can give your patience yet desires of your heart. Only if you believe! Patience requires a lot of effort, yet self-control. Just remember in the answer / prayer answered then; you will be finding something greater. "Just Don't Give Up" ... Patience will show you the things; you thought could not do, but you could do. Hold onto God unchanging hand: You will not fail but triumph to the platform of greatness or soar like an eagle at highest mountain peak. Just as a key unlocks a door so does your patience that comes into effectiveness. Boldness comes forth in your testimony to; share your pure joy that received from the Lord above, yet the obstacles in which you overcome by the grace to move forth and go forward in your peace of mind. Patience brings newness into your life. The

faith full of deliverance yet breaking chains. Sometimes, the road seems long, but the distance is short from where you started at in your walk.

Calmness

It is more than counting from 1-10, inhale/exhale. Calmness is about remaining silent sometimes. More than figuring out the plan but going above the solved problem. What calmness means to you? Almost as soothing a baby goodnight sleep. Positioning is an element to calmness, trying not to panic requires acting. Calmness is soft like the ocean shores: It is as gentle as grain of sand, pouring through your fingertips.

Calmness is mastering a thing: Which seems small yet learning to remain calm during the storm. If you enjoy calmness, then you feel free from relaxation. Almost like going to a massage parlor. As my fiancé quoted Bruce Lee quote: "The hardest thing to master is calmness."

Would you rather your emotions be intact or out-of-whack? Calmness would help you improve your life; as while adapting to changes in life.

Such as, fireman tell little children in case of fire; you should not panic but have a family plan. That is what I am writing to you readers: Always have a plan yet think ahead it is two ways to handle calmness. Either stay silent or let resilience come to you. Calmness is more than show it requires doing action.

Alignment

No, I am not speaking on a tire rotation alignment. It is about getting in tune on the right path; and you being in alignment yet straight line in God. Everything needs to connect to the perfect masterpiece artistic. God wants you to do more than love, accept, or know of him. Serving God is what strive for wholeness does. Have you ever taken geometry? You had to know about intersections: How did point B connect to point C? Where did they meet at on the dot? Same about God what you giving him? Or need more of God to do in your area of life. Find that angle that fits worthy to God. There are many areas in my life: I needed polished up, or to fully let go of due to unwanted waste. Once I acquired those simplicity of things in my life; then the alignment to God followed also flowed. The things blocked or not in the right timing; Begin to be released yet come to me at the right time. Tune into your spirituality seek faith upon anything, also trust God path for your life "don't look back" or you will go backwards instead of forward. Once you are in alignment then everything else comes smoother yet easier. It is less things on your plate.

Soak It Up

Soak up the scriptures let the verses stand out to you. Anything you are going through or facing in your life, the scriptures will help you get through it. Just as you soak up soap for your hands to become clean. Let your scriptures bring forth spoken answers, healing, yet change your life. Whenever, you soak something up then what is your next action. As a baby soak up milk during nursing or drinking from a bottle. The scriptures highlight main points, and specific topics of

anything. Enjoy the amazing creations in life, yet the ways you can learn something new daily, or the awesome love from your family and friends. Soak it up just like water in a tub.

Mercy

Psalm 123: 3-4 Have mercy on us, O Lord, have mercy on us for we have endured much contempt. 4) We have endured much ridicule from the proud, much contempt from the arrogant. The Lord gives mercy to the broken hearted, sinner, the lost one. God forgives each person; only requirement just repent and let God be first in your life. Jesus gave mercy by dyeing on the cross for our sins, yet so our path could be changed to new. Mercy is more than just forgiving someone or sympathizing about your commons alike. It is person you have cared for but does not hold onto a grudge or unforgiveness too. A lot of people forgive, yet nor actions apply to mercy. Think About It- The ways God showed mercy to your life. Compassion says lot about someone sincerity, Matthew 5: 7 "Blessed are the merciful for they shall receive mercy." Matthew 5:8 "Blessed are the pure in heart, for they shall see God. Ask God bestow mercy in your life for other people: Do more then just pray for someone. A compassionate person has true understanding about others, yet their accomplishments through life. Mercy is about seeing someone else spectrum besides just your own. Be thoughtful charismatic, and joyous during the silent times. Jesus showed the whole world, true mercy yet what it took for us to have everlasting life. You be the bigger person in the end. Do not let confrontation

come as a surprise or a notice to STOP! Each person should be filled in their hurts with mercy. Broken people hurt people yet strong people build their fort and a person up. The more you practice mercy the bigger it will become in your life.

Keep Your Light

You always need make sure your light shine. Make sure it does not go out by anybody else. Jesus is the main source of light. You should establish a true, lasting, long relationship, yet seek him. Your light needs to shine brightly, such as a flashlight does in the dark. Do not let anybody mess with the flicker and get you out of normal self or stop! Your breakthrough for coming to you.

Remember this song: "This Little Light OF Mine; I'm going to let it shine." Pour yourself into others which can help you build yourself up. Always keep your light within inside turned on. Always put your guard up. Let your light be so bright then the next beam / rays. When you dedicate yourself to God and Is a child of the highest. You will start to visually faithfully walk in the light. Faith is the substance of things hoped for, and evidence of things unseen. The scripture founded in Hebrews 11: 1 - In Isaiah 60:1 "Arise shine; for your light has come, And the glory of the Lord has risen upon you. Just as the Olympian hold the torch up high. Do the same for yourself keep your torch lite and raise yourself up to improve in quality of life. Smiling is the most

beautiful attributes, and it proves a lot about your character. Stay faithful to the highest: Which is the Lord & Savior yet Jesus Christ. Let your light shine brighter each day and continue to shine.

Exercising

Take about 20 minutes through 30 minutes out your day to exercise. It is not only good for your heart / health also your mental wellness, and body type / shape. I just got through exercising about 15 minutes, and I felt great afterwards. Also remember to stretch before and after. Find a good exercising routine, and then begin to utilize it. You will begin to enjoy it next: Then next thing you know your mood will change, also your health become better. I can not wait to gradually work myself, up then I will start exercising daily. Try different type of exercises rather it is yoga, push-ups, or running. Swimming is a good exercise too. Who do not like to swim, I do like to swim? Exercise gives you a proudness of your accomplishment of that target goal. Once you been exercising for a while, then you will start to notice changes in your body, and the thinking process. The more you exercise the longer: You will be able to go in the duration of time. If you have children, then you will notice children following in

your steps. They model what is been shown in front of them. Exercising is a rewarding feeling that makes you smile inside / outside. Start small then increase your exercises steps or workout: You will be able to achieve yet stride. Ask, yourself what are going to do become fit? What is your achievable weight? What do you want to obtain from exercising? Remember to count your carbohydrates and look at the number of servings per snack or meal. Also, set your intervals and proceed in cautionary.

...Self-Talk...

You should motivate and encourage yourself. Think more positive about life and enjoy the beauty. Have a self-talk and look at where you want to be in the next year. You need make small steps / changes if needed. Nobody! Will encourage yourself better than you. Progression is better than none. Follow your strategic guidelines make the first move. Speak to yourself silently not abruptly.

Explore Your Identity Sometimes self-talk can release you from troubles. God is always available to talk to you. Just must open up and let his love flow within your heart. Self-Talk another form of self-respect. It illustrates ways to communicate and hear rather not just listening. It is good for you to boost or motivate yourself in your own way yet words. What outlines you during pain? You need positive reinforcement to tap into your potential.

Do you know yourself? Have you thought about...? Who are you? Why is your situation the same? Find your identity. You should be more superior on discovering new things; you like to try yet do. Think in the positive aspect. Example: I like to read, write songs, and poetry, and my books. I like to try ziplining or take an extravagant cruise for a whole week with family. Each person has a uniqueness or special talents / gifts. It outlines it in Romans 12:6- Since we have gifts that differ according to grace given to us, each of us is to exercise them accordingly. If prophecy, according to the proportion of his faith. It is more than your secret number too, your social security number, yet a picture of yourself as Jesus does for you. Truly see the way God notices you. Identity is more than your genetic composition. What make you be an awesome person? Name your specific traits that other people admire? What is your purpose in life...? Do you know? Would you rather be organized, jumbled up, or looking for your way? God gave each person their own identity. Your specific attributes or special features. Name your identity trait? What distinguish you from others that is near or around you daily. Identity says a lot about a person yet what kind of friends that is in their circle. Family gives you different components to add to your identity.

Leave Your Burdens

When your bothered leave your burdens unto the Lord. Do not sit there dwindle yet let the problem; become problematic. Always trust the Lord. Burdens are meant to give closure, yet bring you through, do not let the problem make you. Just leave your burdens there. Before you decide to give-up / quit re-think about whose watching you and cheering you on. Burdens need to be cast down / removed. The people that you least expect to be there, always seems to amaze you differently. The one is who you've thought hang around end up acting brand new. If you carry your burdens that is more weight pulling you down. Remember trouble does not last always. Once, you prayed about specific situation do not pick it up, God is working it out just be patient and stand in the season. Leave your worries at the altar. Burdens are another form of issues, problems, or garbage needing to be backed up. The less you stress the more peace God will give unto you. I know how it is to carry a heavy load or think about how k / or putting in the work for a specific quality movement. Change can be a good thing; It is all the way you look at it. Sometimes, change is needed in order to produce the growth in your dreams / life. You do not necessarily need a standing ovation or a loud applause; you just need the right start to get to the destination. Be bold yet stand firm continue the race, quitting is easy but hard work want to go un-noticed, press your way through.

Driven to Prosper

What drives you to prosper? Is it your family, parents, or friends? How do you claim prosperity? What are you willing to give up? Once, you aligned then God will intertwine in your life. God brings new beginning's, joy, peace, prosperity yet more. Just like a vehicle needs gas to drive. You need God to define a purpose in your life. Once, you prosper then building a foundation to your legacy. What you want others to remember the most about yourself?

Name your creditability in define? Driven to Prosper chase your goal, find fulfillment in the opportunities that comes in your life. Prosperity brings peace yet happiness to the gratitude in your family. If you can have the car of your dreams? What would it be and why? How would you drive it to get to your luxury spot? Now think of all the ways, God could bring prosperity to your life and in what ways would you use those cherished moments. How would you make those times bigger or important? What does prosperity mean to you?

When you drive a car place your foot down and push the gas, to go... Think about that metaphor, In your life the way you need to put your foot down and push through yet move forward like a airplane. God will give you the fruit of the spirit: Peace and Joy, Love, Kindness, yet so much more. When you prosper you grow in 1 dimension yet transpire in another dimension. Growth

want growth, or new change. It is also time for another chance. As you get to know God your faith begins to strengthen, or as you read in the bible new scriptures flow outward. Take Up! A new skill set to apply in your life find something you love to do. Strength comes from inward goes to all that it is about to flourish and plant your spiritual seed in the ground. Prosperity brings calmness to your soul.

Acknowledgment

First thing acknowledges God in your life. Do you pray as soon your get up out of bed? I do, before anything else God is the first person, I talk too yet in prayer. In order to get somewhere in life: You need to acknowledge to

yourself, where you want to go or be. The things you want to take out or add into your life. Before, you can take any steps yet make progression, then acknowledge the areas in your life. Acknowledgement is a very formative attribute. It is the #1 step God wants people to acknowledge him daily. Rather by prayer, fasting, meditation to name few ways. When you give acknowledgement, you draw attention or give importance to something. Name the person /persons you acknowledge? Did you add God to your list as the top choice or priority? When you add God in your life everything else seems to come along too. Acknowledgement shows a form of respectfulness. If you have children or grandchildren or young person in your life; make sure to teach them about the key to acknowledgement and they know who God is in life. So, they will learn at a young age how important a relationship with God is in life.

Strength

Each life challenge you encounter could only strengthen yourself. Strength is opposite of weakness. Sometimes, the toughest battles make you realize; how much strength you have carried within inside. Strength is about standing for something you believe in, and how you outward. When your going through a dark storm, you truly see how much it took to stand yet push your way through. God is the source of strength. In Phillippians 4:13-I can do all things through Christ which strengthens me. Strength surfaces onto the earth magnitude. Reach deep within yourself until, you have conquered the stage.

Experiences

Life experiences comes unexpected. Some are exciting but fun, others you want to forget, and the rest makes you want to find an answer. Through those moments soak everything as water soak into a towel: God uses our experiences to shine an array of hope and light for our life. Experiences could be difficult or rewarding it is up to your cogitation, yet outlook through your focus lenses. There will be times whenever; you cry but you got to "Get Up Again" and do not stop okay! Got It! Faith comes along by experiences. You will have a better understanding on many things; in which you overcome. Those experiences made you much stronger, yet let you know that you made it through, the grace of God. You might not understand everything, you have been through, but eventually you realize. Everything comes in God perfect timing. Your experiences reveal lots of the things, that were hidden or submerged.

>>>You Are not Alone<<<

Sometimes in life their moments; you might feel loneliness, or by yourself. Their someone always by closer. God said, "He will never leave you nor forsaken you". Friends might be busy, or family live in different town or state, but God always send someone to help during his timing. Do not let your emotions be in control: You take control of your life with God overflow yet direction. Simply find new hobbies or you could do a puzzle to capture a moment. Just know regardless of the look of the situation, you are more then what you may feel. Sometime, feelings can be tricky but that is why you should in pray in everything.

Saving Grace

In Psalms 45:2- You are fairer than sons of men; Grace is poured upon your lips; Therefore, God has blessed you. Saving Grace is inherited before your salvation. God gives anything you've asked in his son name 'Jesus'. Grace is a form of newness, elegance, yet security. It is better to be saved, chosen, and wanted: Instead, of neither of those things. God salvation is real, pure yet rewarding. As the song says, "Amazing Grace" is more than sweet to, your lifestyle of liberty. God is the master of all creations, the heavenly father to the nation. What is your saving grace? Broadening even further, how do you give your all to humanity? Grace brings for the peace and prosperity.

James 4:6 - But he gives a greater grace. Therefore, it says, "God is opposed to the proud, but gives grace to the humble."

Wholeness

Are you wanting completeness? What is the link missing in your life? Do you have partial filled / lack of importance? Where does your motivation come from? Wholeness is being filled by the grace of life. Knowing your covered by God always. Just as you need energy to move around, or food supplied so you want hunger. It is reassurance in your yourself identity. Do not fear change? It can help you get to your safety area. Once you have nothing in the way, you will start to feel complete. Wholeness gives you a fullness to security yet safeness.

Gifted

God appointed each person in talents / gifted qualities. Some were born upon, yet others are given. Each day should be a refresher to learn new discoveries, about who you are... New moments should be embraced or created. One of my talents are writing rather it is poetry, a message, or my 1st book. Giftedness are

spoken to in greatness. Example: If you like to draw then create a comic or storyline, you enjoy taking pictures then find the best scenery in colorfulness or black and white. A person has different gifts not a present for a birthday or Christmas gift. What are your talents? How did you distinguish your gifts for others? Talents are embroidery on your name; pick them up and use them. Do not let it go to waste or become unused. Gifted is being set apart yet reaching for something higher. The more you pray to God more God will shower or give to you.

Enlightment

God source of light that is florescent in our lives. The more you know of God then closer the relationship becomes. Weakness is now stronger, yet Enlightenment starts up. You will be able to discover more of self. Be resilient and courageous take a stand. Enlightenment a new ray of hope and inspiration. God gave us clarity to know the difference. What you want in life? How do you expect to draw near to God? Look up words to enlighten your spark. Name ways you are going to do better. God have so much to give / offer just need to be open to receive. Enlightenment means power to decree: Speak over yourself, family, close friends. In order to do better, somethings must be loose or let go. God has the power of 100% to change your life forever. Magnificent, magnitude, a life changer that is some qualities of God greatness. You need to let the dedication inside enlighten the outside. Radiance to shine your light in the world. What are the talents needing to be released? Is God your savior

and safe magnet? "Let it Stick" to you to comprehend the force of God. The enlightenment greater, then the deep blue tides of ocean waves. Enlightenment is much bigger, more than the eleven words summoned in it. God have everything, in his hands waiting to open more of himself to you. God brings grace yet newness on each level.

Steadfast

These are the words God spoke to me. When you steadfast in your spirit your unshakeable, yet know your stronghold comes from the Lord. A foundation that secured in safety, and God only one that knows the combination. Be strong in the Lord go deeper also growth, like a seed watering in the mist of a storm. Have you renewed your heart or spirit? In the scripture Isaiah 26:3-4 "The steadfast of mind you will keep in perfect peace, because he trusts in you. 4) Trust in the Lord forever, for in God the Lord, we have an everlasting rock. Be steady on solid ground yet merciful to forgive others, who hurt you in the past or present.

Power
